

A Teacher-Founded Company with Teacher-Authored Curriculum

Be a Part of the Community through the Empowered Educator Program

The Empowered Educator Program is a partnership with eDynamic Learning and educators who play an important role in the evolution of the eDynamic Learning digital curriculum. We strive to ensure that the curriculum works in real classrooms by continually soliciting input from a community of educators who use eDynamic Learning and wish to shape the direction of CTE education.

Empowered Educators are experienced educators that help provide awareness and understanding of today's CTE classrooms. They are experts, advocates, ambassadors, and frequent speakers at educational conferences and tradeshow, and provide recommendations and insight for future products and areas of focus.

Teachers and administrators interested in joining in the Empowered Educators program must be available to participate in at least one online event and/or one face-to-face event. The Empowered Educators meet yearly to share, collaborate, and learn about new eDynamic Learning courses currently in development. Travel and expenses for participation at the event is paid for by eDynamic Learning.

Empowered Educator Program Requirements

- A full-time CTE teacher or administrator in a K12 public, private, or charter school
- Willing to share the benefits and impact of eDynamic Learning with school members and fellow colleagues
- Willing to present at conferences or local professional development events sharing your experience with the eDynamic Learning courses/curriculum
- Serve as a reference site for other districts considering using eDynamic Learning
- Willing to be included in a success story, blog, or marketing literature sharing your success
- Provide feedback on the eDynamic Learning courses/curriculum and give suggestions for enhancements and/or new areas of focus
- Remain an active user of the eDynamic Learning courses/curriculum

Empowered Educator Program Benefits

- Additional course licenses for your students and your school
- Educator/School Success Story
- Opportunities to participate at conferences
- Opportunities to lead professional development events in your region
- Opportunities to author blogs or participate in webinars for eDynamic Learning
- Opportunities to write content for a new course
