compared to the  
overall national

# 88%

of CTE students  
are planning to  
continue on to  
post-secondary  
education

## Career Ready Program™

The eDynamic Learning Career Ready Program™ offers high school students sequenced learning tracks aligned to national standards. These tracks put students on a path to obtain industry certifications and to secure employment in high-paying, high-demand jobs.

### Opportunities for brighter futures.

Schools everywhere are seeing the benefits of the eDL Career Ready Program and are taking action to prepare students for life after high school.

### Full of funding potential.

Funding for our program has never been more accessible. The Perkins reauthorization will mean over \$1.2 billion of CTE funding in 2019, and \$1.3 billion in 2020.

### Meeting economic needs.

In our changing economic landscape, it is estimated that of the 55 million job openings created by 2020, 30% will require career and technical training or a 2-year degree, not a 4-year university degree.

### A chance for those who need it most.

Research shows that CTE courses are especially valuable for at-risk students. The bottom line: Our eDL Career Ready Program keeps at-risk students engaged.

“In all, some  
**30 million jobs**  
in the United States  
that pay an average of  
**\$55,000/year** don’t  
require bachelor’s  
degrees.”
