

Virtual Summit

Transcending Learning: Going Beyond the Walls

Showcasing Benefits of Online Curriculum
for Teaching & Learning

No Cost To Attend

You're invited to join us for an exciting two-day event!

As schools pivot to accommodate new and different ways of engaging students in learning, we know many of you are having to shift your instructional strategies to go beyond the classroom walls and make decisions quickly. eDynamic Learning has heard from administrators and teachers across the nation who are having to adjust to teaching remotely.

We've invited industry and educational thought leaders to share their insights and triumphs of incorporating online curriculum into their strategies, and teaching methods. Over the course of two days, eDynamic Learning will be hosting engaging Q&A panel sessions and workshops to enable schools to hear and learn proven methods for integrating online curriculum successfully and sustainably. Participants will discover how incorporating online curriculum provides unique opportunities to grow and expand school programs, obtain more funding, and support all students no matter what the circumstances.

Panel Topics

(Sharing & Q&A) 1 hour (4 per day)

- **Disaster Mode: Flipping the Switch to Fully Online**
- **Supporting Equity & Access for Distance/ Remote Learners**
- **A Virtual Program: How to support long term, short term, summer, homeschool students, etc**
- **Continual Learning Plans (CLP)/ Instructional Continuity Plans (ICP)**
- **Expanding Your CTE Programs (Avoiding Growing Pains)**
- **Helping Your Students Earn Industry Certifications**
- **Developing & Growing Industry Partnerships (Apprenticeships and Internships)**

Participants will have an opportunity to submit questions to the panel prior and during each session.

Workshops Themes

30 minutes Presentations

- **Flexible Features of Online Curriculum**
- **CTE & Certifications**
- **Internships & Apprenticeships**
- **Virtual Programs**
- **Leadership Workshops**

*Each workshop theme will have several specific topics presented under each theme.

Workshops will be presented by industry members, school & district leaders or educational experts.
