

VIRTUAL BUSINESS HIGH SCHOOL

eDynamic Learning's comprehensive curriculum allows you to enhance and customize it to incorporate your favorite tools and applications. Learn how Knowledge Matters Virtual Business simulations complement the course to give your students an interactive, risk-free, game-based environment to test new concepts and learn business principles. See the table below for recommended options for integrating the two solutions together.

Meet the Simulations

Entrepreneurship

From the elevator pitch, to securing financing, to operating a profitable business, this sim teaches all the keys to successful entrepreneurship.

Restaurant

Starting your own restaurant is a common dream. Here students do it in the safety of a virtual world while learning general business concepts.

Personal Finance

Live out ten financial lifetimes in an hour! From banking, to credit, to investment - this is the #1 personal finance curriculum in the U.S.

Accounting

From debits and credits to forensic accounting, the subject comes to life when students learn through a business they run.

Fashion

Developed with the Fashion Institute of Design & Merchandising this sim covers trend spotting, to design, to mark-ups and mark-downs!

Sports & Entertainment

Your students will learn business and marketing in a context that is sure to attract them to class - the exciting world of sports and entertainment.

Retailing

In focused lessons, students control pricing, staffing, products and more. In the capstone project, they run the whole show.

Hotel

Developed with the support of the J. Willard and Alice S. Marriott Foundation, this sim gives students a realistic look at the inside workings of the global hospitality business.

Management

Students will manage a manufacturing plant. They'll recruit employees, supervise them, and even fire them if needed.
